

Teachers that have an understanding of a student's learning style, achievements and struggles can motivate a child to obtain academic excellence.

**K12Excellence TeacherView™** is a secure web based portal where teachers have access to real-time information about their students, their classes, lesson planning, and collaboration and productivity tools. The portal includes the ability to create academic development plans for students and track their progress against the plan.

In addition to the review of student information the portal includes curriculum planning, alignment to state standards, student assessments, parent communication tools, productivity tools.

Teachers can collaborate with other teachers within their district including lesson plans, resources and assessments. The portal facilitates communication with counselors, librarians and other school employees to assist teachers with their daily responsibilities.

Teachers can also directly communicate with parents, create a class webpage, or form letters. The portal is a great self-documenting tool for parent-teacher conferences.

## **K12Excellence TeacherView™ Features**

**K12Excellence TeacherView™ has been designed to aid the teacher in providing the best educational environment for their students.**

**Student Connection-** Understanding the student is vital to successful teaching.

**Student Assessment** - Evaluating students and monitoring their achievements and struggles will provide insight to assisting them to achieve excellence.

**Student Development & Progress** – The ability to create academic goals and development plans for students. Share with students and parents their progress towards these goals and plans.

**Parent Communication** – Tools to communicate with parents. Teachers can easily prepare for parent – teacher conferences. The portal documents all types of parent communication and involvement.

**Curriculum & Lesson Planning** – Create and document your curriculum, lesson plans, lesson units and assessments. Match your curriculum to your state's NCLB (No Child Left Behind) assessments.

**Teacher Network** – Use the forum to post questions and answers or review those of teachers within your district. Teachers can share and view ideas, lesson plans and resources with other teachers.

**Classroom Performance** – Dashboards that help identify issues within the classroom. Included are comparisons to similar classes in the school and district.

**Suite of Productivity Tools** – A combination of productivity tools are integrated into the portal, this includes a Calendar, a Daily Journal, To Do lists, Notes and Contacts.
